

# Syllabus: Plastics in the Ocean

Welcome to the Unit on  
Plastics in the Ocean!  
This will be a Project-Based Learning Unit

***Fact: More than 1 million  
seabirds and 100,000 marine  
animals die from plastic  
pollution every year.***

## Driving Question:

How can we help reduce plastics in our oceans?

## Description

Through research, collaborative thinking, and group work, each team will come up with a solution to help reduce plastics in our oceans. The team will then present their solution in a creative way. Throughout the unit, teams will assess their own progress, and will work with the teacher to stay on task.
