

Coaching Conversations with Student Work at the Core

With Rebecca Shea

Join us!

Are you a coach or mentor for other teachers but need help facilitating meaningful discussions to support student learning through instructional practice? Come join us for a plan-do-study-act series where participants will learn a protocol for examining student work (plan), implement it with one teacher (do), and come back to share what they learned about supporting teachers and ultimately student work (study & act). No experience with coaching teachers is required but participants will need to be able to work with one teacher for this PDSA cycle. This could be any colleague who is willing to partner with you to learn more about how to support both student learning and teacher practice.
