

# "FALL" INTO MATH PD

Hosted by the Upstate Professional  
Development Resource Center

*Presented by Karen Martin*

## Turn Your Classroom Into a Student-Centered Mathematical Playground

*Thursday, Sept. 22, 4pm-5pm*

The classroom environment leaves an impression of how your students capture math content from September through June. In this session, we will share ideas of how to transform your learning environment into a space of engaging mathematical thinking and activity.

## Meaningful Makeovers: Making Math Problems/Questions More Engaging While Creating Access for All Types of Math Learners

*Thursday, Oct. 27, 4pm-5pm*

Have you noticed your students, or even yourself, sometimes getting confused by the problems in your math texts? In this session, I will share strategies of how to transform your math exercises from a given text into a meaningful problem solving experience. Your students deserve the opportunity to engage with a problem that promotes thinking, strategizing, and learning from mistakes.

## Meaningful Fluency & Number Sense: Practices That Promote and Support a Growth Mindset

*Thursday, Nov. 17, 4pm-5pm*

Students should learn strategies to make sense of their fluency, and make connections to building relationships amongst numbers. During this session we will explore fluency activities that are fun, don't depend on time or pressure, and support a growth mindset.
